THE WINDSCREEN THAT RISES ABOVE THE AVERAGE

People are attracted to a place where they can get together, enjoy a casual conversation, a nice view, good food and a nice drink. Outdoor restaurants that offer maximum comfort and enjoyment to their guests often enjoy good business too, since satisfied guests will return with more friends, thus increasing the restaurant's turnover.

Protection and Comfort

Shelter your guests from all the hassles of outdoor dining. Cold winds, harsh weather and theft are just some of the negative elements that distract restaurant guests from dining or having coffee in an open-air environment. Café au Lä windcreens provide protection against all these elements when necessary, making outdoor dining more comfortable and enjoyable.

Lä – Swedish word pronounced as lay; (skydd mot vinden) shelter; (sitta i ~...) on the lee side, the leeward; (i ~ för vinden) sheltered from...; (i ~ om) to the leeward of
